Subject: Tunney Act

Follow through with this act and end all of this !!!!
Making the biggest and the best should be Microsoft's prerogative.
Isn't that what the free trade market is all about?
Microsoft makes a good product and doesn't screw with the consumer. If they want something different they can purchase it.
If the government spent as much money taking care of the un-employed, hungry and homeless in our country as they have on this case we would be in good shape.
I see this whole process as a witch hunt with a very biased judge presiding over most of it.
Thank you,
Ruth Silveira
